Quality, Environment and Safety at Work Policy

Version 5 – November 2023

Cambridge Energy is committed to delivering the highest possible quality to its customers, adopting a respectful attitude toward the environment, and providing a safe and healthful workplace. We take the quality of our product seriously and believe our users should enjoy the benefits of solar energy over the entire useful life of the asset.

To enable us to do this, we have implemented an Integrated Management System that emphasizes best practices and continuous improvement for the scope of the business:

“Design, manufacturing, commercial and after-sales of solar trackers”

Based on the UNE-EN ISO 9001:2015, UNE-EN-ISO 14001:2015, and UNE-EN-ISO 45001:2018 standards, we commit to the following principles:

- We ensure that our products comply with **applicable specifications, standards, codes, and applicable laws and regulations** regarding our product, our environmental impact, and safety at work.
- We commit to **continuous improvement** of our product and processes and environmental protection, injury prevention, and deterioration of health through quality, environment, and health and safety objectives planning.
- We believe **customer satisfaction** is paramount, and our commitment to quality, environment, health, and safety at work is at the heart of this effort.
- We promote open **communication** with our stakeholders to help us improve our products and services and encourage consultation with employee participation.
- We **train and motivate** our staff to promote our Integrated Management System principles.
- We emphasize **commitment to quality**, respect for the environment, and commitment to safety in all our activities.
- We provide all resources and media needed for the organization to comply with the **Quality, Environment, and Safety at work requirements**.
- We provide the organization with the means required for **quality, environmental compliance, and risk and contamination prevention** related to all aspects of our activity.
- We are more than happy to discuss our policies and can be contacted at info@cambridge-energy.co if you wish to learn more.

Sincerely,

Tom Miller – CEO
